

## **ROADS'09 Call for Demos**

ROADS'09 will host demonstrations, with the purpose of allowing the participants to the workshop to demonstrate 'live' their contributions. The demonstrations are not limited to contributions associated with papers that are presented in the workshop. We encourage the demonstration of contributions related to the workshop topics with a primarily focus on engaging people in discussion.

### **Submission and selection**

Interested contributors should send a one paragraph description of their demonstration. The workshop organizers reserves the right to select the demos that will be presented within the time limited session. Authors of selected demonstrations are encouraged to send a two page description of their demo. This description will be published on the workshop web site.

### **Demos Presentation**

The demonstrations will be presented sequentially to the audience in a dedicated session. Presentation time is limited to 10-15 minutes per demonstration. It is not confirmed yet if and how good the internet connectivity at the workshop will be. It is therefore safe to prepare an offline version of the demonstration.

### **Important dates**

Demonstration submission deadline:	September 14 <sup>th</sup> 2009
Notification of acceptance	September 17 <sup>th</sup> 2009
Two page demo description due	September 21 <sup>st</sup> 2009
