

**11th ACM SIGOPS European Workshop**  
September 20 to 22, 2004  
Leuven, Belgium

Authors are invited to submit position papers to the 11th ACM SIGOPS European Workshop reporting on original research related to the design, implementation, and analysis of computer systems. We seek contributions from all fields of systems practice. Topics of interest include, but are not restricted to:

Fault tolerance	Security	Scalability
Performance	Ubiquitous computing	Mobile computing
Power management	File systems	Sensor Networks
I/O architectures	Overlay networks	Multimedia systems
Self-managing systems	Hardware/software interaction	

To ensure a productive workshop environment, attendance is limited to about 60 participants who are active in the field. Each potential participant should submit a position paper. Participants will be invited based on the originality, technical merit and topical relevance of their submissions, as well as the likelihood that the ideas expressed in their submissions will lead to insightful technical discussions at the workshop. Please do not submit abbreviated versions of journal or conference papers.

Submissions will be done electronically. Detailed instructions for the submission process can be found at the Workshop Web site (<http://www.cs.kuleuven.ac.be/conference/SIGOPSEW04>). Submitted papers must be no longer than five (5) Letter or A4 pages in a typeface no smaller than 10 point. The page limit includes everything: references, title page, figures, appendices, etc.

**Important dates**

**Submission deadline: March 9, 2004 (extended)**

Acceptance notification: June 1, 2004

Workshop: September 20 to 22, 2004

**Program Committee**

Lorenzo Alvisi, University of Texas at Austin, US

Paul Barham, Microsoft Research, UK

Yolande Berbers, Katholieke Universiteit Leuven, Belgium (General Chair)

Miguel Castro, Microsoft Research, UK (Program Chair)

Peter Druschel, Rice University, US

Krisztian Flautner, ARM, UK

Steven Hand, Cambridge University, UK

Barbara Liskov, Massachusetts Institute of Technology, US

Gilles Muller, Ecole des Mines de Nantes, France

Andrew Myers, Cornell University, US

Antony Rowstron, Microsoft Research, UK

Willy Zwaenepoel, Ecole Polytechnique Federale de Lausanne, Switzerland

Maarten van Steen, Vrije Universiteit, Netherlands
