

Chairs' Message

It is our great pleasure to introduce the HotPower'11 program. We received 38 submissions and collected 123 reviews for them. Each paper received 3-4 reviews, at least two of which were from program committee members. Based on the reviews and discussions during the program committee conference call, we selected 10 of the submissions for presentation at the workshop.

We would like to thank the program committee members and external reviewers who worked hard to select the best papers. We would also like to thank the authors who submitted their papers for consideration. We hope that the feedback you received will contribute to your work.

We hope you will enjoy the workshop and your visit to Cascais, Portugal!

Ricardo Bianchini and Prabal Dutta
Program Co-Chairs of HotPower'11
